

## Anti Rust 3 C

### Waxy film rust preventative

#### Description

Anti Rust 3 C is a solvent based rust preventative which leaves a waxy and translucent film that provides long term protection to ferrous and non-ferrous metals.

#### Applications

Anti Rust 3 C is designed for applications where protection is required during indoor

storage for periods of 18 to 24 months. Typical applications include:

- Protection of packaged items during storage and shipment
- Long term indoor protection
- Protection of parts during storage where a firm, non-tacky dry film is required

#### Typical performance data

Appearance	Amber
Specific gravity @ 20 °C, g/cm <sup>3</sup>	0.83
Viscosity @ 40 °C, cSt	5
Flash point, °C	34
Film type	Waxy
Drying time @ 20°C, minutes	30-45
Indoor protection, months	18-24
Removal	By solvents or alkaline cleaners

#### Use

Can be applied by brushing, dipping or spraying. It is recommended agitate prior to use and empty drums totally. Removal by solvents or alkaline cleaners.
